EDUCATION

Queen's University

Bachelor of Computing (Honours)

- Recipient of the Arts and Science Scholarship (25,000× 4 years)

Kingston, ON

Expected May 2030

PROJECTS

QStudy — Study-Group Matching Platform

July 2025 - August 2025

Python, Flask, SQLAlchemy, SQLite, React, JavaScript, HTML, CSS

[Link](#)

- Built a full-stack web app connecting university students for study groups, using Python and Flask for the backend and React, JavaScript, HTML, and CSS for the frontend
- Designed a SQLAlchemy/SQLite database schema and RESTful API endpoints to support user accounts, group creation, and group membership
- Implemented session-based user authentication and deployed the app across separate frontend (Vercel) and backend (Render) hosting services
- Built responsive, interactive UI components in React, including live filtering and search, to help students quickly find relevant study groups
- Managed version control and collaboration using Git and GitHub throughout development.

SwipeHire — Resume Screening Web App

June 2025 - July 2025

Python, Flask, SQL, SQLite, HTML, CSS, JavaScript

[Source Code](#)

- Enabled secure, persistent user sessions resistant to SQL injection by building Flask/Python backend routes and API endpoints for authentication and session management
- Delivered an intuitive resume-review workflow for users by building a responsive swiping interface in HTML, CSS, and JavaScript
- Enabled users to filter and track candidate decisions efficiently by designing a SQLite schema and integrating PyPDF2 for automated resume-text extraction

PUBLICATIONS

STRAIGHT: AI-Powered Archery Coaching via Pose Estimation and VLMs

ACM UIST

Poster — K. Kumar et al.

- Co-authored research at ACM UIST 2026 on single-camera AI coaching for physical skill acquisition.
- Co-developed shot segmentation using pose heuristics and binary-search VLM queries, achieving 100% phase detection across 66 video clips.
- Engineered MMPose keypoint tracking for 6 postural/timing metrics to compute personalized consistency baselines.
- Formatted kinematic analysis metrics into structured payloads to drive a RAG-enabled LLM coaching engine.

LEADERSHIP & EXTRACURRICULARS

Canadian Recurve National Team Member

Archery Canada

Selected 1 of 3 nationally for 2025 World Archery Youth Championships; Team Bronze, 2024 PanAm Youth Champs 2021 – Present

- Ranked #1 in Canada (Indoor U18 Recurve, 2024) and #3 in Canada (Outdoor U18 Recurve, 2024 & 2025); Massachusetts Indoor State Champion (2025) and Massachusetts Outdoor JOAD Champion (2024).
- Bronze, 2025 Lancaster Archery Classic, livestreamed to 66K+ viewers.
- Fourth, 2026 Lancaster Archery Classic, livestreamed to 105K+ viewers.
- Maintain a 25+ hour/week training regimen alongside a full academic course load.

Private Archery Coach | Certified USA Level 2 Instructor

Franklin, MA

Independent

July 2025 – Present

- Approximately doubled outdoor scoring performance and coached a beginner athlete to become the top-ranked archer in the tri-state region and winning bronze at nationals, using video analysis and structured training plans.
- Assistant JOAD Development Coach (XSPOT Archery): coordinated with head coach on athlete progression, evaluated body mechanics, and trained 5+ archers.
- Certified through USA Archery in safety protocols, range setup, and instruction; taught 50+ lessons.

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS, JavaScript, Java, C, C#

Frameworks & Libraries: Flask, React, SQLAlchemy, Unity, MMPose, scikit-learn, matplotlib, PyPDF2

Tools: Git/GitHub, SQLite

Certifications: CS50, Microsoft Azure AI Fundamentals (AZ-900); USA Archery Level 2 Instructor
